Delinea

Why Choose Delinea

Define the boundaries of access, without the excess.

As organizations continue their digital transformations and move to the cloud, they face increasingly complex environments and an expanding number of identities. This can lead to more challenging privileged access requirements for securing an expanded threat landscape. Privileged Access Management (PAM) is complex, but the solution doesn't have to be. At Delinea we believe the opposite of complex isn't simple — it's seamless.

Delinea is a leading provider of solutions that seamlessly extend Privileged Access Management for the modern, hybrid enterprise. We believe every user should be treated like a privileged user and wants seamless, secure access, even as administrators want privileged access controls without excess complexity. Our solutions put privileged access at the center of cybersecurity strategies by defining the boundaries of access. With Delinea, privileged access is more accessible.

✓ A partner for extended privileged access controls

Digital transformation, the cloud, and remote working have created new requirements for how to securely access what is needed to be productive and successful. Access controls are no different than any other cybersecurity tool — no matter who is using it, they just want it to be invisible and to work seamlessly. That's where we excel. Delinea provides authorization for all identities, controlling access to an organization's most critical hybrid cloud infrastructure and sensitive data.

✓ Engineered for seamless security

Maintain and evolve your Privileged Access Management program with greater confidence and achieve higher stakeholder adoption levels. Our PAM solutions are designed to reduce complexity and minimize costs by helping delineate the boundaries of access. Delinea gives users more digital freedom, and gives IT and Security teams more control and greater value in less time.

✓ We're accessible at any size

We're a trusted partner to thousands of organizations around the globe — from small businesses to the Fortune 100 — because we make privileged access more accessible for everyone. And we do it while eliminating the need for complex security tools while prioritizing productivity, flexibility, and control.

Whether in the cloud or on-premise, Delinea's solutions are readily customizable, scalable for growth, and powerful enough to secure your organization no matter where it is on its PAM maturity journey.

Delinea Platform

Delinea Platform

Seamlessly extend Privileged Access Management to provide just-in-time access with easy, adaptive controls

- Establish a Secure Vault
- Secure Remote Access
- Extend MFA Enforcement
- Access the Marketplace
- Scale Easily

Protect Privileged Access

Secret Server

Discover, manage, protect, and audit privileged access

- Establish a Secure Vault
- Discover Unknown Accounts
- Delegate Access
- Manage Secrets
- Control Sessions

Privileged Behavior Analytics

Detect anomalies in privileged account behavior

- Secure Accounts
- Establish Baselines
- Monitor & Identify
- Alert
- Take Action

DevOps Secrets Vault

Protect the secrets that DevOps teams and RPA tools need

- Establish Vault
- Centralize Secrets
- Automate & Scale
- Issue Certificates

Account Lifecycle Manager

Control and manage service account governance

- Establish Workflow
- Delegate Ownership
- Provision Service Accounts
- Enforce Governance
- Decommission Accounts

Secure Endpoints and Devices

Server PAM

Manage identities and policies on servers

- Centrally Manage Identities
- Enforce Adaptive MFA
- Adopt Least Privilege
- Improve Security & Compliance

Privilege Manager

Implement endpoint application control for workstations

- Deploy Agents
- Manage Accounts
- Define Policies
- Elevate Applications
- Improve Productivity

Enable Remote Work

Connection Manager

Ensure unified management of remote sessions

- Establish Remote Access
- Manage Sessions
- Centralize Control
- Record Sessions
- Track & Audit

Remote Access Service

Secure remote access for vendors and third-parties

- Secure Remote Access
- Reduce Vulnerability
- Streamline Deployment
- Centralize Third-Party Access
- Monitor and Record Sessions

Delinea

Delinea is a leading provider of Privileged Access Management (PAM) solutions for the modern, hybrid enterprise. The Delinea Platform seamlessly extends PAM by providing authorization for all identities, controlling access to an organization's most critical hybrid cloud infrastructure and sensitive data to help reduce risk, ensure compliance, and simplify security. Delinea removes complexity and defines the boundaries of access for thousands of customers worldwide. Our customers range from small businesses to the world's largest financial institutions, intelligence agencies, and critical infrastructure companies. **delinea.com**
