When referring to drive capacity, one terabyte, or TB, equals one trillion bytes and one petabyte, or PB, equals 1000TBs. Your computer's operating system may use a different standard of measurement and report a lower capacity. In addition, some of the listed capacity is used for formatting and other functions, and thus will not be available for data storage. Seagate reserves the right to change, without notice, product offerings or specifications. SC913.1-1122 AMER
